City of Milpitas Community Service Application

Briefly describe the personal qualifications you possess which you feel would be an asset.

In addition to having been a resident of Milpitas for 32 years, I am also a 3rd generation native Californian. I have a deep love for this state and the immediate surroundings. A lot of what I do in the business world spills over into the personal world.

- Highly organized
- Forward thinking
- Analyze problems with objectivity
- Create solutions and act on those solutions

I have been in the electronics industry since 1972 and have been the owner of my company since 1984. I have seen the best of the good times and the worst of the bad times.

My application for the Recycling and Source Reduction Committee will give me the ability to ease into service to the City of Milpitas without causing undue strain on my family, business, and service group obligations. I see recycling and source reduction as not just being a civic mandate but, if done correctly, a potential for generating much needed revenues for the City.
